### Services offered for the course

The course is a 2-year Distance Learning Program (DLP) for JEE Main / Advanced, which is also useful Class 11/12 following the NCERT syllabus.

1. Printed lessons for the course will be sent to the mailing address. The dispatch will be in two sets. The first set covers NCERT syllabus of Class 11, and part of Class 12 (at the level appropriate for IIT JEE). This will be dispatched in 2 to 3 weeks of receiving this application form and realization of cheque, or start date of course (June 1, 2015), whichever is later. The second set covers the remaining syllabus of Class 12, and will be dispatched around last week of Mar 2016. Lessons cover the complete JEE-Advanced syllabus (appendices, content outside of this syllabus etc. will be available only online).
2. On-line access to assignments and tests for the course duration. Login will be created within one week of realization of cheque, or start date of course, whichever is later. Online assignments and tests will consist of Multiple Choice Questions (MCQs), and marks will be awarded for tests and assignments completed by the student, on or before the due date.  
Availability of online material (including lessons) is spread over time; as time passes, more of the lessons, assignments and tests will be available, and the complete material will be available around Sep 2016.
3. On-line access to full solutions for tests and assignments.
4. Email clarification of queries (if subscribed), pertaining to our course material. The course material has been written with great care to be as clear as possible, and is suitable for self study. However if the student does not understand some part of the material after reading it carefully, he/she may send a query to us for clarification, as per the procedure mentioned on the website.

### Terms and Conditions

This agreement is between 'you' (the student or parent/guardian) and 'us/we' (SCIMS Academy).

1. Last date for admission is Aug 10, 2015 for 2 year course. You must satisfy the admission criterion mentioned in 'Academic details'. If the criterion is not met, or you apply after the last date, we have the right to refuse admission, and refund any fees paid after deduction of Rs 500 as processing charges.
2. Paid fees will not be refunded under any circumstances, except when admission is refused as given above.
3. The course material provided by us is our intellectual property, and is solely for your personal use. You must not make any copies of the material, or share / give the material to anyone else.
4. Any change in address or phone number must be intimated immediately. If the study material is returned because of wrong address, it will be sent again only after payment of Rs. 500.
5. We do not guarantee your success in JEE (Main) / JEE (Advanced) / XII boards, in spite of providing the best training; due to high competition, limited number of seats, and dependence on other factors (like your effort, aptitude etc.).
6. We rely on third party servers for providing on-line access. Though these servers will be up 99% of the time from 6 am to 12 midnight, there can be occasional periods of downtime. Also we will try to provide adequate server capacity, but there can be periods of sluggish response due to overload (and other factors beyond our control).
7. You must provide us with a photocopy / scanned copy of your Admit Card along with Registration no. for Class XII CBSE/State Board, JEE, and other Engineering Entrance Exams, after applying for it, and receiving the same.
8. If you succeed in any competitive exam(s), we may use your name / photograph for our publicity. We may also ask you for a letter of appreciation, if required.
9. In case of legal dispute, the jurisdiction will be an appropriate court in Bangalore City (Karnataka) only, and you shall not take recourse to such an action anywhere else. In any case, the compensation claimed shall not exceed the fees paid for the component (like 'doubt clarification') for which our service is alleged to be significantly deficient.
